Edward Woodward plays the title role in one of the most successful series of its kind on British television. Callan is far removed from the usual run of TV agent. He's human, fallible, even weak - and totally believable. He's licensed to kill, yet hesitates to shoot his worst enemy. He's trained to function with machine-like precision, yet retains his own personal code to carry him through the ordeals he has to face. Supporting Edward Woodward in these dramatic stories of espionage and counter espionage, love, hate, life and death, are Michael Goodliffe as Callan's boss and Russell Hunter as 'Lonely', the underworld informant.
